EXPERIENCE

GOLF RANGER/OCN GOLF AND RESORT

12/2017-07/2018

My job was to look after the entire golf range area, which meant selling golf balls, snacks and beverages. Monitoring all the sections of the range as well as picking up guest and resort equipment. Was responsible for transporting guests from one location to another. We were also responsible for maintaining the range which took a while considering it is the second largest in the world.

I used prior training to answer all guest inquiries without the need to involve a manger.

CASHIER/TARGET

06/2019-01/2020

Worked up front as a cashier. Had to work quickly under pressure; scanning items bagging and keeping a fluid conversation with the customer with no brakes for hours all while on my feet. My main job was to give Target a good name by being overly kind and considerate no matter the attitude of the customer.

I gained a ton of good conversation skills with this job and learned great ways to find a good conversation topic with someone I had never met before.

EDUCATION

UNIVERSITY OF CENTRAL FLORIDA

Junior at UCF with a 3.7 GPA studying to complete my bachelor's in health sciences/ pre physical therapy.

VOLUNTEER EXPERIENCE OR LEADERSHIP

Over the summer of 2017 I volunteered at [kids college](#) for a period of 2 weeks where I was in charge of a group of 20 kids age ranging from about 6-12 and I would have to walk them from class to class as well as monitor them in the classroom. I also did a lot of volunteer work in my high school for NHS (national honors society) which included, working for concessions at sports games, working at foods banks, and donating helping move boxes of donated shoes to shoe drives.
